

# Easy Living

*in a quiet, friendly 55+ community!*

Beautifully remodeled one bed and one bath condominium with an extra room that could be used occasionally as a second bedroom. The bedroom features a spacious walk in closet. You will see new carpet, new paint, new counter tops. Most importantly, a new Carrier AC system dedicated to keeping your electric bills low, is waiting to be registered in the name of the new owner. The condo is on the second floor, but this is not a problem as the elevator will save you many steps.

This northwest St Pete community is well maintained by residents who take an active interest in their homes and surroundings. All this for just \$59,500.
